### Container-Jet 0800

- Comfortable soft-touch control
- Material saving water heater
- Low-maintenance air system
- Automatic flushing
- Powerful diaphragm pump

The Container-Jet ensures its extremely powerful pump for rapid and continuous removal of material from large containers such as drums and containers of all types and sizes.

Since the time-consuming filling of container material is eliminated, the Container-Jet is ideal for processing large amounts both in manual and in the material support for belt conveyors.

With the Container-Jet you use apricot glaze, fondant, glaze, etc. not only fast and clean, but also with high precision ... just for convincing results.

Take advantage of our experience as a specialist  
in the field of pastry finishing and invest in the bright future  
of your business.
